REMARKS:

In the foregoing amendments, claims 1, 5-10 and 12 were amended to depend from claim 11. Claim 11 was allowed in the outstanding Office action mailed April 26, 2006. Accordingly, a formal allowance of claims 1 and 5-12 is respectfully requested. The foregoing amendments are being made to clarify what was already implied in applicant's claims and these amendments are not narrowing amendments and are not being made for reasons substantially related to patentability presented.

After the foregoing amendments, claim 11 is the only independent claim in the application, which claim was allowed in the outstanding Office action. The remaining claims 1, 5-10 and 12 depend from allowed claim 11. Thus, all the claims in the application are now in condition for allowance. For such reasons, applicant respectfully request that the foregoing amendments be entered under the provisions of 37 C.F.R. §1.116(b) for the purposes of placing the application in condition for allowance or for the purposes of appeal.

The Official action maintained the rejection of claims 1, 5-10 and 12 under 35 U.S.C. §112, first paragraph, as failing to comply with the written description requirement. The Official action stated that the limitation in these claims of "the spacer having a length in a longitudinal direction longer than the diameter of the small hole" is not described in the specification. In the foregoing amendments, the limitation "the spacer having a length in a longitudinal direction longer than the diameter of the small hole" was removed from applicant's claims. Therefore, applicant respectfully submits that this rejection is now moot, and accordingly, it is respectfully requested that this rejection should be reconsidered and withdrawn.
